

A Letter From the Dentists

Dear Friends & Neighbors,

We want to keep you up-to-date with the latest news with our practice and innovations in dentistry. One of the best ways we found to do that is through a quarterly newsletter. We've also included a special treat on future dental work!

We want everyone to have a great healthy smile. We want our patients to understand the importance of dental health and how it can affect your overall health. We want everyone to know they can have a great smile regardless of insurance or finances. These "wants" aren't our practice policies or mission statements - these are our convictions. These are the reasons we get out of bed in the morning, and the reasons we do what we do for a living. Our passion for dentistry is insurmountable, and we always strive to provide the best care possible for your smile.

If it's been a while since you've been to the dentist, don't worry. At Brunelli & Fluellen Real Family Dentistry, we understand that life gets busy, priorities shift and things happen that are out of your control. Call us when you're ready!

Did you know?

Before toothpaste was invented people used dry, rough things as an abrasive to clean their teeth - like crushed eggshell, pumice or the burnt hooves of animals! Before the invention of the toothbrush, people used twigs or their fingers. Thank goodness for progress!

NEW AND EXISTING PATIENT SPECIAL

Bring this coupon in and receive

\$50

Off your next cosmetic procedure.

NO CASH VALUE. Patients account will be credited with 50 dollars to use toward any cosmetic dental procedure including bonding, whitening and veneers. Offer can be used in combination with new patient special.

Certain restrictions apply. **EXP. 12/31/11**

Real families are talking and we appreciate the new patients they refer!

Tooth Truth: Young Teeth

The greatest single threat to a child's oral health comes from excessive non-milk extrinsic sugars found in soda, juices, cookies, cakes, candy, and table sugar. Also of concern is the increasing practice of adding sugar to breakfast cereal and allowing infants and children to sip sugary drinks for prolonged periods of time.

Parents should be proactive to cut down on sugars. Making sure to brush or at the very least rinse with water after a sugary treat is effective against tooth decay. It is a major family choice to eat healthy snacks and to maintain a healthy smile. For more information on how to make the right choices, you can rely on the only dentists in town that provide real family dentistry at Brunelli & Fluellen.

Dr. Regan Prewitt

You might have noticed that there is a third talented and well trained dentist that works at our office. Her name is Regan Prewitt, and she is a third generation dentist. Dr. Prewitt and Dr. Fluellen attended Baylor School of Dentistry together and recently joined Dr. Brunelli to provide the citizens of Richardson and surrounding areas with real family dentistry.

Dr. Prewitt has enjoyed being a part of dental care in the region. She has actively put to use what she's learned from her father and her grandfather. She enjoys working with all her patients, but she finds extra delight in taking care of children's teeth and teaching them good dental habits. Maybe you'll be fortunate enough to have an appointment with Dr. Prewitt and get to meet our fantastic new doctor.

No Insurance? No Problem!

Two Basic Cleanings Per Year • 2 Exams Including X-rays • Discounted Fees for All Dental Work • Discount on Supplies

No Cap • No Waiting Period • **BONUS:** Whitening Trays for signing up! • **ONLY ONE ANNUAL PAYMENT**

We are now offering the Community Dental Plan!

With one annual payment, you'll eliminate monthly deductibles and only pay again when you have dental work done. Not only will you get a significant discount on your dental work, but you'll also receive free x-rays, free exams, free whitening and free cleanings. Call for more details on this family-friendly alternative to dental insurance.
